

Diagnostic Green is attending the EAES in November in Barcelona

We are delighted to be back on the road this year and attending the EAES/IFSES World Congress of Endoscopic Surgery taking place in Barcelona, Spain.

As well as hosting a booth (#214) in the exhibit hall, we are sponsoring a workshop on Wednesday 24th Sala 131-132 on Fluorescence:

Wednesday

MC4. Fluorescence – Let's see the invisible and improve outcomes in surgery – Wed 24th 14.00-17.50

Course directors: Michele Diana (France), Luigi Boni (Italy), Alberto Arezzo (Italy), Steven Wexner (USA)

- 14.00 – 14.20 The International Society for Fluorescence Guided Surgery – Fernando Dip (Argentina)
- 14.20 – 14.40 FIGS in general surgery clinical applications – Salvador Morales Conde (Spain)
- 14.40 – 15.00 Improving outcomes with FIGS developments and advancements? – Manish Chand (UK)
- 15.00 – 15.20 Improving assessment of intestinal perfusion? – Ronan Cahill (Ireland)
- 15.40 – 16.00 NIR urinary tract enhanced visualisation – Mahdi Al-TaHER (The Netherlands)
- 16.10 – 16.30 How to increase adoption – Luigi Boni (Italy)
- 16.30 – 16.50 IRCAD-EAES Surgery registry – Andrea Spota (Italy)
- 16.50 – 17.10 EAES consensus conference on Fluorescence – Elisa Cassinotti (Italy)
- 17.10 – 17.30 The future of fluorescence is bright – Michele Diana (France)
- 17.30 – 17.50 Panel discussion question and answer session – All

Some of the other fluorescence guided talks/events taking place at the event are:

Wednesday

Session 2: Fluorophores in the clinical practice today and tomorrow – Wed 24th 11.00-12.40

- 11.00 – 11.20 Current achievements in perfusion issues – Manish Chand (UK)
- 11.20 – 11.40 Does it help in lymphadenectomy? – Riccardo Rosati (Italy)
- 11.40 – 12.00 Is it preventing biliary tract injuries? – Luigi Boni (Italy)
- 12.00 – 12.20 Smart fluorophores and hyperspectral imaging – Michele Diana (France)
- 12.20 – 12.40 Targeted fluorophores for surgical oncology precision – Alex Vahrmeijer (The Netherlands)

- **S25 AEC3: 10.45-11.00 New Trends in esophago-gastric Surgery – Luigi Boni (Italy)**

Thursday

- **S43 Consensus conference Fluorescence – Sala 111, Stream Technology, General, 15.00-16.30**

Chairs: Luigi Boni (Italy), Alberto Arezzo (Italy)

1. General topics - a. Basics of Fluorescence - Michele Diana (France), b. Costs & cost effectiveness - Nereo Vettoreto (Italy)
2. Organ specific - a. Cholecystectomy - Luigi Boni (Italy), b. Colorectal (Lymph nodes) - Manish Chand (UK), c. Colorectal (Perfusion) - Marco Augusto Bonino (Switzerland), d. Bariatrics - Myrthe Eussen (The Netherlands), e. Spleen and adrenal - Felix Nickel (Germany), f. Liver - Yoav Mintz (Israel), g. Pancreas - Felix Nickel (Germany), h. Upper GI perfusion - Riccardo Rosati (Italy), i. Upper GI (Lymph nodes) - Kiyokazu Nakajima (Japan), j. Urology - Paulo Gontero / Marco Oderda (Italy), k. Gynaecology - Ewelina Malanowska (Poland)
3. New developments - a. Ongoing trials - Gianfranco Silecchia (Italy)

Friday

- **S100 Bild duct injury: a controlled global pandemic – how to prevent BDI: ICG? 15.00-15.15**
- **S107 New insights in colorectal surgery – 3D, 4K Fluorescence – 17.15-17.30**
- **S111 How to deal with complications of endocrine surgery – How can ICG heal avoid undesired events in endocrine surgery – Michael Bouvet – 17.15-17.30**
